# Monthly Financials

Vizo Financial Corporate Credit Union

**April 2023 Financials**

Enclosed please find Vizo Financial Corporate Credit Union's financial statements and supplementary financial information as of April 30, 2023. These reports include information regarding our balance sheet, income statement, asset quality, capital adequacy, liquidity and interest rate risk. It contains all the financial data required for review under Regulation 703.

## Balance Sheet

Member overnight balances averaged $3.695 billion, down from $3.875 billion in March and slightly above February's $3.666 billion. Comparing total deposits, which include the EBA balances, overall average overnight deposits were down $187.5 million, which reversed March's increase of $185.3 million. Given the much lower than historical influx of deposits in the March-April time period, which reflects just how tight liquidity is for our members heading into the summer months, we secured some six-month borrowings at very attractive prices to warehouse liquidity. The spread between the single day high and low balances was $1.338 billion, up from March's $995.1 million and February's $845.5 million (includes EBA balances). The volatility of short-term member balances increased from 22% to 30%, another indication of the liquidity tightness within our membership.

Average off-balance sheet credit union balances – those held in our Excess Balance Account (EBA) – averaged just $61.2 million and ended the month at $59.1 million. The EBA has proved to be a key tool for controlling the size of our balance sheet; however, with liquidity coming down dramatically, the majority of EBA funds are back on the balance sheet.

From a seasonal cash flow perspective, March-April have historically been the months where deposits peak. Total short-term deposits (on-balance sheet plus EBA) hit a record high of $10.365 billion in April 2021. In April 2023, this average stood at $3.756 billion, reflecting the major turnaround in the liquidity environment of our membership. Our 12-month rolling average assets dropped from $5.808 billion to $5.760 billion. We are targeting a maximum on-balance sheet asset size of $6 billion which, given the current liquidity environment, we expect to remain well below throughout 2023.

We now target a minimum of $700 million in our Fed account to cover member settlement activity. After two years of significant amounts of excess cash, we are back to having to actively monitor the cash levels in our Fed account. In April, our Fed balances averaged $1.987 billion with a low of $1.376 billion. The higher average Fed balances were the result of taking advantage of warehousing liquidity at attractive pricing levels. Average liquidity borrowings in April increased to $822.5 million with $1.025 billion in outstanding borrowings at month-end.

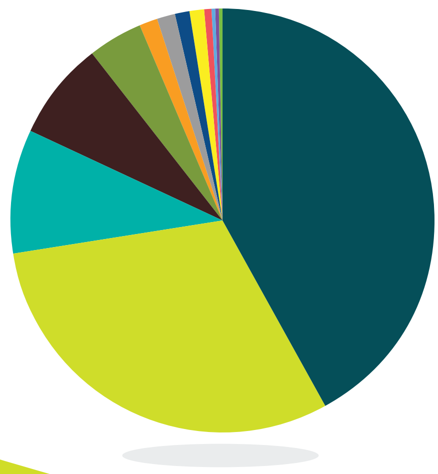
## Total Book Values as of April 30, 2023



| | |
|---|---|
| $ 2,500 - Cash/FI Deposits | $ 67 - ABS Student Loans |
| $ 1,826 - SBA Pool | $ 63 - Member Loans |
| $ 554 - Agency CMO | $ 30 - Corporate Bonds |
| $ 449 - U.S. Treasuries | $ 20 - GNMA |
| $ 245 - ABS Credit Cards | $ 13 - FHLB Stock |
| $ 92 - ABS Auto | $ 10 - CUSOs |
| $ 80 - Agency Floaters | $ 1 - CMBS/MBS |

** All figures in the charts above are in millions.*

# Financial Condition & Performance

April 2023

*continued from page 1*

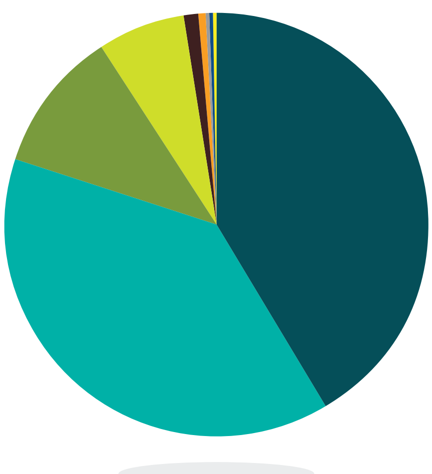
While system liquidity remains tight, access to advances is readily available through our primary borrowing sources.

Some line items to note on this month's balance sheet:

- On-balance sheet (month-end) member shares were down from the prior month, coming in at $4.445 billion compared to $4.903 billion in March but above February's $4.219 billion. Month-end figures can vary considerably depending on the day of the week on which a month ends. Of this month's total, $483.1 million was in certificates while the remaining balances were distributed between the various PSA and settlement deposit accounts.
- Month-end assets came in at $6.068 billion. Average net assets were below that figure, coming in at $5.627 billion. Excluding non-perpetual capital accounts, but including net unrealized losses, our total net equity is $519.7 million. The overall unrealized gain/loss/AOCL figure increased to an unrealized loss of $30.0 million. More details regarding market values of securities are discussed later in the report under the heading "Unrealized Gains/Losses."
- Total retained earnings ended the month at $333.6 million. Net operating income for the month came in at $2,874,931. This was reduced by losses on the sale of investments ($125,525) and negative CUSO income ($59,034). Dividends paid on PCC accounts totaled $710,508 for a net addition to retained earnings of $1,979,865.
- Our leverage/tier 1 capital ratio is at 9.37%, and our retained earnings ratio now stands at 5.79%. *Our total capital ratio ended the month at 9.52%.*
- The Net Economic Value (NEV) (economic value of assets less the economic value of liabilities) came in at $539.6 million at the end of April, with an NEV ratio of 8.89% compared to the prior month's 9.03%. The NEV ratio will fluctuate quite a bit month-to-month since it is calculated based on month-end assets versus average assets. In the up 300 basis points scenario, the NEV ratio drops to 8.57% with a negative fluctuation of 4.4%. We are well above required regulatory NEV levels (2%).
- The available liquidity section reflects our capacity for generating liquidity. We factored out securities in the "available-for-sale" (AFS) portfolio whose current market values were lower than we realistically believed we would sell. Although 100% of our marketable securities are classified as AFS, unless the market value is positive or the unrealized loss is estimated at under $5,000, we do not include it as liquid in our "Available Liquidity" report.
- Total capital now stands at $548.2 million, excluding unrealized gains and/or losses on securities and accumulated other comprehensive losses. This consists of PCC, retained earnings, equity acquired in merger and eligible non-perpetual capital accounts (NCAs), less total equity held in unconsolidated CUSOs. NCUA regulations require us to reduce capital by the total equity held in unconsolidated CUSOs in calculating our leverage and total capital ratios. Total equity in unconsolidated CUSOs stands at $9.9 million. Without these reductions, our gross total capital amounts to $558.1 million.

*continued on page 3*

## Credit Quality as of April 30, 2023



- $ 2,477 - Federal Reserve
- $ 2,295 - U.S. Gov't Guaranteed
- $ 634 - U.S. Gov't Agency
- $ 403 - Asset-Backed Securities (AAA)
- $ 63 - Member Loans
- $ 30 - Corporate Bonds (AA-/AA+)
- $ 23 - CU/Bank Cash Holdings
- $ 13 - FHLB Stock
- $ 10 - CUSOs

** All figures in the charts above are in millions.*

*continued from page 2*

We also help members manage funds through the use of off-balance sheet products:

- Marketable securities
- SimpliCD brokered certificates
- Federal Reserve Bank's EBA program

## Off-Balance Sheet Activity

Current balances/usage of these off-balance sheet products are reflected below:

| | | |
|---|---|---|
| SimpliCDs | $ | 1.058 billion |
| Security Sales* | $ | 670 million |
| EBA Balances | $ | 59 million |
| **Total Off-Balance Sheet** | **$** | **1.787 billion** |

**Security sales reflect sales over the past 18 months*

## Unrealized Gains/Losses

The unrealized loss for April 2023 was $30,021,510, compared to a loss of $27,363,184 in March. The increase in unrealized loss was driven primarily by the agency CMO portfolio, where the unrealized loss increased by $1.7 million to $14.1 million. The SBA portfolio also saw its unrealized losses move up $1.6 million to $3.2 million overall. We have over $2 billion in eligible collateral that can be used to access funds from the Federal Home Loan Bank or the Fed's Bank Term Lending Program, and all remaining securities are acceptable collateral for the Fed's Discount Window. *From a credit perspective, our portfolio remains solid with a total risk-based capital ratio of 69.3%.*

To provide additional insight on this month's unrealized gain/loss figures, we are providing a breakdown of what securities make up these changes in fair market value and book values.

- $14.132 million LOSS is related to our government agency CMO securities portfolio ($553.7 million total book value)
- $0.013 million LOSS is related to our agency MBS/CMBS securities ($0.4 million total book value)
- $0.689 million LOSS is related to our government guaranteed mortgage securities ($20.1 million total book value)
- $0.368 million LOSS is related to our agency floater portfolio ($79.8 million total book value)
- $0.071 million LOSS is related to our corporate bond portfolio ($30.0 million total book value)
- $0.066 million LOSS is related to our credit card asset-backed securities ($244.9 million total book value)
- $0.823 million GAIN is related to our auto and equipment asset-backed securities ($91.6 million total book value)
- $2.147 million LOSS is related to our student loan asset-backed securities ($66.7 million total book value)
- $10.137 million LOSS is related to our U.S. treasury securities ($449.3 million total book value)
- $3.221 million LOSS is related to our government guaranteed SBA portfolio ($1.825 billion total book value)

Market values and the associated unrealized gains/losses indicate an estimate of what the sale price of these assets in today's markets would be, and do not necessarily reflect the actual gains/losses that would be realized if the assets were to be sold or held to maturity.

## Summary

Please take a moment to review our financial statements and do not hesitate to contact us if you have questions. We also recommend that you share this information with your board of directors to satisfy the due diligence requirements set forth in NCUA Regulation 703.

Our highest priority will remain the financial strength and safety of the organization and total transparency in the reporting of our financial condition.

We are grateful to our members for their continued support and for the trust you place in us. If you have any questions, please do not hesitate to contact us.

**David W. Brehmer**
*President & CEO*

# Notes to Financials

1. Tier 1 (Leverage) Capital = Reserves, Undivided Earnings, Equity Acquired in Merger, & Perpetual Contributed Capital (PCC) less unconsolidated equity investments and less any amount of PCC that causes PCC minus retained earnings (all divided by moving daily average net assets) to exceed 2% (per NCUA Regulation 704).
2. Tier 2 Capital = The PCC that has been deducted from Tier 1 Capital + unamortized Non-perpetual Capital Accounts (NCAs) – $8,329,030.
3. Total Capital = Tier 1 + Tier 2 Capital.
4. Equity acquired in merger reflects the value of the retained earnings that came to Vizo Financial from First Carolina.
5. Marketable Securities are classified 100% as "available-for-sale."
6. Net Economic Value (NEV) = the fair value of assets less the fair value of liabilities.
7. NEV Ratio = Dollar NEV divided by the fair value of total assets.
8. PCC qualifies as equity capital in calculating our NEV ratios. As equity, PCC is not treated as a liability when calculating Vizo Financial's NEV.
9. The regulatory minimum required capital ratios today are:
    a) Leverage (Tier 1) capital ratio: 4.0%
    b) Tier 1 Risk-based capital ratio: 4.0%
    c) Total Risk-based capital ratio: 8.0%
10. The leverage capital ratio is calculated by dividing Tier 1 capital by MDANA (moving daily average net assets).
11. The Tier 1 risk-based capital ratio is calculated by dividing Tier 1 capital by the moving monthly average net risk-weighted assets.
12. The Total risk-based capital ratio is calculated by dividing Total capital by the moving monthly average net risk-weighted assets.
13. All credit card and auto related asset-backed securities are rated by S&P (AAA), Moody's (Aaa) and/or Fitch (AAA).
14. Student loan asset-backed securities are rated by Moody's (Aaa) and S&P (AAA).
15. Corporate bonds ratings ranges are from S&P (AA+/AA-) and Moody's (A1/Aa1).
16. Available-for-sale securities in the liquidity section includes only bonds with market values showing: 1) Gains, or 2) Unrealized losses below $5,000.
17. Other Assets includes insurance policies held with Midland National, North American Company and Minnesota Life tied to 457F plans and a split-dollar plan to offset executive and employee benefits costs.
18. All borrowing capacities reflect current market value of eligible collateral plus appropriate haircuts.
19. Primary credit access is available at the Federal Reserve Bank (FRB).
20. Current LOC limit at FHLB-Atlanta $2,022,239,400 (4/30) – this will vary based on assets. Borrowing capacity reflects collateral available for accessing line.
21. Unsecured fed funds lines: $100 million from PNC Bank; $50 million from Corporate One.
22. Secured fed funds lines comprised of $150 million from U.S. Bank – line secured by asset-backed securities.
23. Accumulated Other Comprehensive Loss reflects unrealized gains and losses and non-credit related market value losses not reductions in capital.
24. NEV & capital ratios are in compliance with policy and regulatory limits.

## Required Credit Analysis Under Regulation 703

Except for investments that are issued or fully guaranteed as to principal and interest by the U.S. Government or its agencies, enterprises or corporations or fully insured (including accumulated interest) by the National Credit Union Administration or the Federal Deposit Insurance Corporation, you must conduct and document a credit analysis of the issuing entity and/or investment before you purchase the investment. You must update the analysis at least annually as long as you hold the investment.

*Retain this report as part of the credit analysis required under Regulation 703.*
